

“Our business doesn’t have a DRUG problem”...

We just have attendance problems...

And work performance problems...

And hiring and retention problems...

And workers comp problems...

Oh... Maybe we DO have a drug problem.

A substance abuse problem with even one employee could cost you a customer, increase your workers’ comp and medical claims, or cause production errors, downtime, violence and property damage.

Workshops on how to handle drugs in the workplace are planned this fall. **Please take our 2-minute survey to indicate your preferences at www.greshamchamber.org.**
